

# Halifax LGBT

## BUSINESS ASSOCIATION

A member of the Canadian LGBT Business Chamber of Commerce and modelled after other successful LGBT business associations, the Halifax LGBT Business Association will provide business networking, education, support to members and help small and medium LGBT business owners make connections with each other and with other organizations.

The Association is offering both individual and corporate memberships. Individual members must be a member, friend and/or ally of the lesbian, gay, bisexual, and transgender business community or professional in Halifax.

Diversity in business is very important, and Halifax is no stranger to diversity. The Halifax LGBT Business Association is just one more key indicator that Halifax is open for business.
