Your editor's building is having its balconies resurfaced. This seems to involve a fair amount of drilling and shaking and noisemaking. All mis-spellings, ungrammatical usage, and forgetfulness of normal Newsletter content are due to this, and not to the waning of mental function on the part of Your Editor. The very thort. No such thring. I am insulted at the very idear.

Now don't forget and show up at Spencer House - it's Northwood!
