4. Issues and actions:

a. Citadel's unprecedented choice of assembly presentation worked acceptably, although there was less student participation. Action: Team to accept assembly option if proposed by schools.

b. A Citadel student walked out due to hurt feelings re presentation language/content. Allison drafted a statement that in speaking truthfully about the past, hurtful language might occur, but with no intent to offend. Allison (as team leader) and Lynn (for Elderberries) wrote letters to Citadel High GSA: no response. Action: Team to use "beware" statement in introducing future sessions.

c. Participant commented we should have a Trans speaker. Action: Team Leader to approach more Trans members re joining Team.

d. Team Leader: Allison, assistant Lynn. Future teams to include a Board representative.

e. Issues re team organization: committee? recruiting? training? contacts with GSA? Action: Allison to call another Team meeting by end of August to work out recommendations.
