Re: Grief Walk and Death Cafe in the French Village Conservation Woodland

To: French Village Conservation Woodland:

Via our board of directors, the Elderberries Society of Nova Scotia strongly supports Louisa Horne conducting a Grief Walk and Death Cafe in the French Village Conservation Woodland.

The Elderberries is a nonprofit society of over 500 2SLGBTQIA+ seniors and allies founded in Nova Scotia in 2010. Once or twice monthly we hold a free social / educational Salon featuring local 2SLGBTQIA+ speakers, writers, and activists and also program a rich variety of other activities. A Grief Walk and Death Cafe would be interesting, educational and inspiring for our members and we are sure many would be interested.

The location in St Margaret's Bay is a good choice because we haven't had a lot of programming there and many members would like to explore it more.

Based on Louisa's extensive experience in planning and organizing events of this type, we believe she is the ideal person to run this project.

We strongly solicit your support for this activity.

Sincerely,

A handwritten signature in blue ink, appearing to read "Daniel MacKay", is written over a light blue rectangular background.

Daniel MacKay,
Secretary
