Were you there?

Syphilis is here! Have You Been Tested?

Syphilis is a serious disease that can be passed from one person to another through sexual contact. It can also be passed from a mother to her unborn child. If you have been sexually active, it is important to get tested for syphilis. The test is simple and painless, and it can help you avoid serious complications. If you are diagnosed with syphilis, there is a cure, but it must be taken seriously. For more information, contact your local health department or a syphilis clinic.

Come Out, Come Out

The "Paper Bag" March: That first march in 1988 wasn't the first, conservative-sponsored parade we see today, it was a protest against. Rights: 75 people marched through Halifax's North End to protest rampant discrimination and the lack of legal protections.

Marchers wearing paper bags at this parade was one of the most powerful and memorable images ever defined by our community.

"Some people wore it practically as a way of disguising themselves and others wore it as a way of showing protest — that we had to be hidden." — Alan Roy Stewart

Halifax Pride 1988 Were you there?

By David Adams

If you remember an event in Halifax, Nova Scotia, in 1988, you might be looking for a parade. It was a parade of sorts, but not the kind you see today. It was a protest against discrimination and the lack of legal protections. It was the "Paper Bag" March. 75 people marched through Halifax's North End to protest rampant discrimination and the lack of legal protections.
